

SPECIAL RELEASE

VOLUME OF CORN PRODUCTION IN BUKIDNON: FIRST QUARTER OF 2025

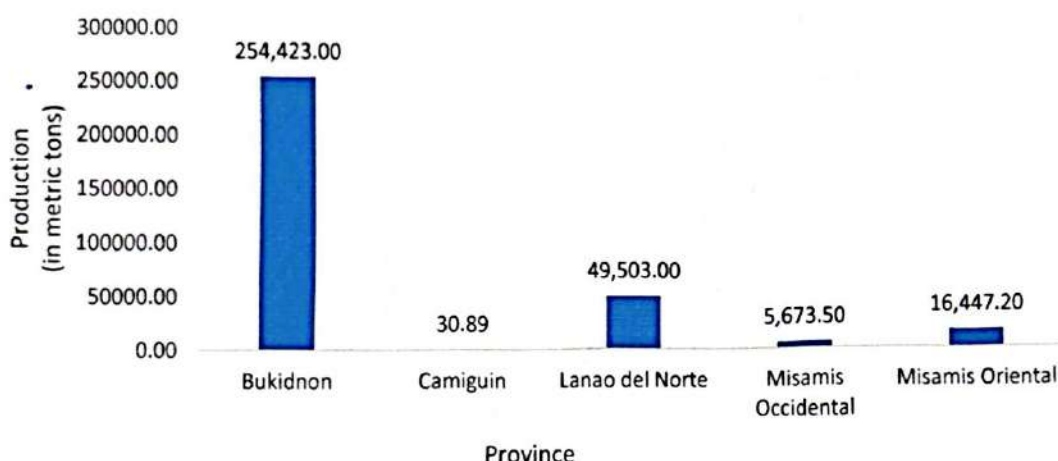

Date of Release: 07 May 2025

Reference No: 2505ID02-002

Corn Production in Bukidnon increased by 3.15 percent.

The Province of Bukidnon put up the highest share in terms of total corn production with 254,423.00 metric tons (MT), or 78.03 percent share of the total corn production of Northern Mindanao. Lanao del Norte followed with 49,503.00 MT or 15.18 percent share, then by Misamis Oriental at 16,447.20 MT or 5.04 percent share, Misamis Occidental at 5,673.50 MT or 1.74 percent share and lastly by Camiguin at 30.89 MT or 0.01 percent share (Figure 1 & 2).

**FIGURE 2. PERCENT SHARE OF CORN PRODUCTION BY PROVINCE,
FIRST QUARTER OF 2025, NORTHERN MINDANAO.**

Source: Philippine Statistics Authority, Corn Production Survey (CPS)

Corn production in Bukidnon increased to 254,423.00 metric tons (MT) during the first quarter of 2025, up from 246,658.00 MT in the same quarter of the previous year, reflecting a 3.15 percent growth. This marks the highest growth rate among the provinces in Northern Mindanao, with Lanao del Norte following at 2.38 percent. In contrast, the remaining provinces registered a decline in corn production, with Misamis Oriental recording the largest drop at 44.95 percent, followed by Camiguin at 31.83 percent and Misamis Occidental at 14.86 percent (Table 1).

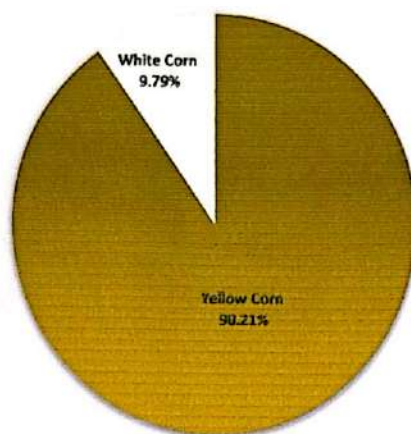

**Table 1. Volume of Corn Production by Province,
First Quarter of 2025, Northern Mindanao.**

Province	Q1 2024	Q1 2025	Percent Change (in %)
	(in metric tons)		
Northern Mindanao	331,598.63	326,077.59	-1.66
Bukidnon	246,658.00	254,423.00	3.15
Camiguin	45.31	30.89	-31.83
Lanao del Norte	48,352.82	49,503.00	2.38
Misamis Occidental	6,663.50	5,673.50	-14.86
Misamis Oriental	29,879.00	16,447.20	-44.95

Yellow corn remains to be the biggest contributor in corn production at 90.21 percent share, with white corn contributing by 9.79 percent. (Figure 3).

Figure 3. Volume Distribution of Corn Production by Croptype, First Quarter of 2025, Bukidnon.

Source: Philippine Statistics Authority, Corn Production Survey (CPS)

Both yellow and white corn increased in production in the province of Bukidnon in the first quarter of 2025. Yellow corn increased to 229,518.00 metric tons (MT) from 224,259.00 metric tons last year in the same quarter, or a 2.35 percent growth while white corn production increased to 24,905.00 metric tons from 22,399.00 metric tons in the first quarter last year or 11.19 percent increase (Table 2).

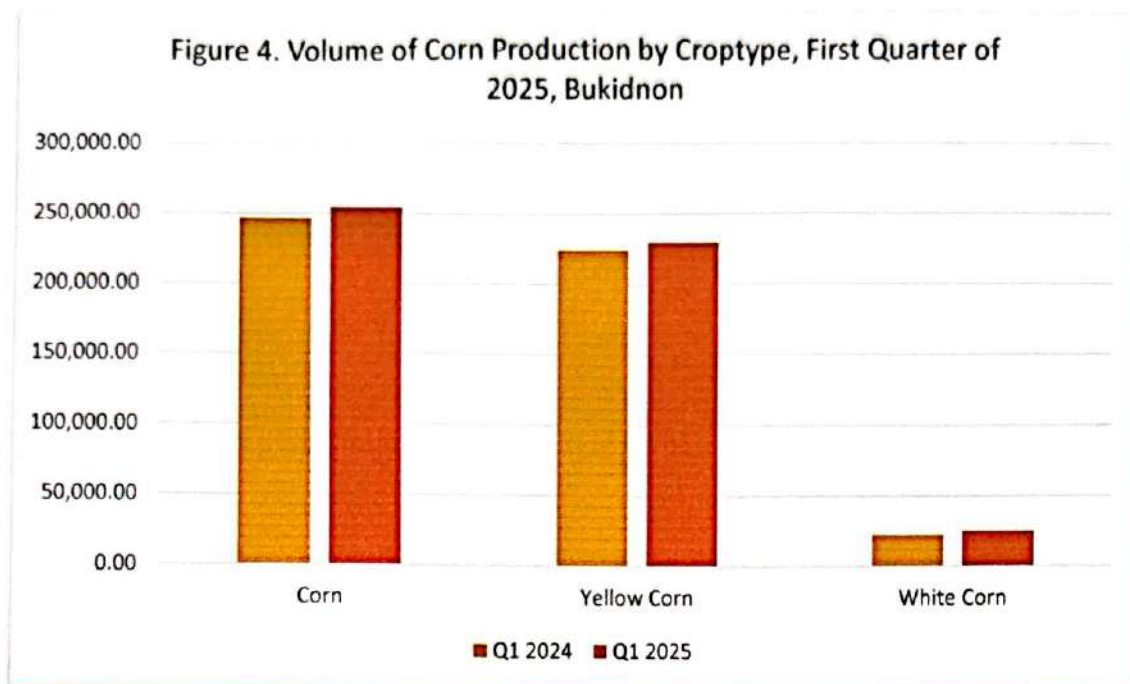

Table 2. Percent change in Volume of Corn Production by Croptype, First Quarter of 2025, Bukidnon.

Type of Corn	Q1 2024	Q1 2025	Percent Change (in %)
	(in metric tons)		
Corn	246,658.00	254,423.00	3.15
Yellow Corn	224,259.00	229,518.00	2.35
White Corn	22,399.00	24,905.00	11.19

STATISTICAL TABLE

Table 3. Volume of Corn Production by Province,
First Quarter of 2025, Northern Mindanao.

Province	Production (in metric tons)	Percent Share (in %)
NORTHERN MINDANAO	326,077.59	100.00
Bukidnon	254,423.00	78.03
Camiguin	30.89	0.01
Lanao del Norte	49,503.00	15.18
Misamis Occidental	5,673.50	1.74
Misamis Oriental	16,447.20	5.04

TECHNICAL NOTES

Estimates of volume of corn production are generated from the Quarterly Corn Production Survey (CPS) of which there are four survey rounds in a year, that is, January, April, July, and October.

The objective of the survey is to generate estimates on corn production. The purpose of this survey is to provide statistical data as reference for research and statistical purpose of stakeholders.

DEFINITION OF TERMS

Crop Production - refers to the quantity produced and actually harvested for a particular crop during the reference period. It **includes** those harvested but damaged, stolen, given away, consumed, given as harvester's share, reserved, etc. It **excludes** those produced but not harvested due to low price, lack of demand, force majeure, or fortuitous events, etc.

White corn – used primarily for human consumption.

Yellow corn – used generally as feed grains. It includes all types of corn other than white.
