The CBMS, a cornerstone of evidence-based policy-making, stands as a testament to the commitment of Sinacaban's leadership to understand, address, and uplift the needs of its constituents and empowers communities by collecting comprehensive data on various socio-economic indicators at the household level.

As LGU Sinacaban takes custody of the 2022 CBMS data, it embarks on a journey of analysis, interpretation, and action, ensuring that the needs of every citizen are heard and addressed. This data-driven approach promises to amplify the impact of development initiatives, fostering resilience and prosperity from the grassroots up.

The ceremony concluded with a sense of confidence and determination, as LGU Sinacaban reaffirmed its commitment to harnessing the power of data for the collective welfare of its people. They embark on this new chapter with unwavering resolve, guided by the insights gleaned from the 2022 CBMS data.
